Max Maude/Shane O'Neill,

This letter serves as my application for the position of Events Coordinator for the ZTL ARTCC. I have considerable experience in graphic design and I recently certified as an Adobe Associate in Visual Design using Photoshop. Over the past few months I have been shadowing under Zack's lead and have assisted in creation of banners, event briefings, and overall event management.

After review of other ARTCC's EC position postings, I noticed most require interested applicants to procure a sample event including a banner and controller briefing. I have created a weekday event which I would likely look at implementing into the VATUSA calendar if selected. The event, Light Up Alabama, would consist of every TRACON within Alabama being staffed for a 3-4 hour period. My thought process behind this was that everyone has heard of Light Up America, so why not do it on a smaller scale? I think this event would be beneficial for GA pilots such as those in the Virtual USA Flying Club due to the close proximity of all 4 TRACONs. This would be a superb opportunity to build our relationship with them.

Let's talk links, the banner for Light Up Alabama is available [here](#) and the controller brief is available [here](#). My resume is attached to the email that sent you this, however, if you need the link it is available [here](#). I look forward to hearing back from both of you, and I thank you for your time and consideration.

Best Regards,

Eli Snowden
